The Process of Building a Custom Home

What can you expect when building a custom home with J Edwards by Brighton? The process starts with an initial consultation. You'll share your vision of the kind of home you want, and we'll discuss features, timelines and budget. In the design and planning stage, you'll partner with a Project Coordinator to either choose and customize one of our plans or create a plan based on your needs and desires.

Once the preliminary plans are made to your satisfaction, you'll put down an earnest money deposit and sign the building contract. Next you'll obtain financing if necessary. With financing secured, you can move on to choosing the design details and finishes that will bring your unique style to your new home.

During the building phase, we'll schedule several walk-throughs with you to make sure everything is going according to plan. When construction is complete, we'll meet for the closing and take you on a final walk-through orientation of your new home. We'll demonstrate the home's features and explain maintenance routines. After you move into your home, we'll remain available to you to take care of any needed adjustments or answer questions.
