

Brighton Homes is proud to introduce the Grayhawk, our award-winning home in the Cartwright Ranch community of [homes in Boise ID](#).

The Grayhawk is a unique design that blends elements of chalet style, countryside cottage and modern farmhouse influences. Nestled in the Boise foothills, it offers beautiful views of the surrounding landscape.

At about 3,330 square feet, this two story home has 3 bedrooms, 2.5 baths and a 3 car garage. The chef's kitchen features a 6-burner Thermador gas cooktop, double wall oven, wine cooler, refrigerator and upright freezer. There's also a walk-in pantry, marble countertops and a large island with farmhouse sink and bar seating.

In the family room, large windows and white paint make the space feel light, bright and airy. The fireplace is flanked by built-in shelves and attractive storage cabinets. A rear courtyard with an outdoor fireplace is accessible from the first-floor master suite hall as well as from the dining area. Just off the garage entrance, the laundry room is outfitted with built-in cabinets, tile floor and a handy sink.

A wide staircase leads to the second floor media room, 2 bedrooms, and a full bathroom with double sink vanity in the dressing area and a separate shower area. This energy-efficient home has zoned heating and cooling for year-round comfort.

The Grayhawk was our featured home on the first ever Boise Virtual Parade of Homes. We're excited to report that this home won the first place award for exterior design. The home really stands out with its contemporary exterior featuring masonry and siding in subtle earth tones.
